

JTAG SMT3-NC™ Statement of Volatility

Revised August 16th, 2023 Author: JC
 This document applies to the JTAG SMT3-NC rev. A.X

This document lists the location, purpose, capacity, volatility and (re)programmability of memory devices that may be installed on the JTAG SMT3-NC (SKU: 410-357). The terms programmable and erasable refer to normal means of access available to the public. It does not include reverse-engineering or any other attempts to extract data from these devices.

The content of this document is provided for information purposes only.

Volatile Memory

The JTAG SMT3-NC does not contain any volatile memory.

Non-Volatile Memory

IC	Memory Purpose	Technology	User programmable	User removable	Size	Reset procedure
93LC56BT-I/OT	USB ID and Configuration	EEPROM	Yes	No	2 KiB	Available through support forum upon request
